DETAILED ACTION

Allowable Subject Matter

Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be improper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 1, with the allowable feature being the white particle is formed from methylpentene or cycloolefin and titanium oxide. Therefore claims 1-5 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Komatsu et al. is pertinent to the application since Komatsu et al. pertains to an electrophoretic display with a white particle made from titanium oxide .
